Who We Are

- Family Voices Indiana is the Family-to-Family Health Information Center for the state. Created in 2005, these centers are statewide, family-led organizations that provide information, education, training, outreach, and peer support to families of children and youth with special health care needs and the professionals who serve them.

What we do

Through trainings and one-to-one support, Family Voices helps other families improve or learn more about
- Systems and services
- Community supports and resources
- Health Care Financing
- Reaching out to underserved and rural populations, including Amish, Spanish, etc. (FV has Spanish-speaking specialists)
